• STAR is a computer based comprehensive assessment for both Reading and Math. Early Literacy is a similar assessment through the STAR platform for children who are unable to read/showed difficulty with the STAR reading assessment.

• Students will take the test 3 times per year. (Fall, Winter, Spring)

• STAR reports show students’ progress over the course of the school year.

• Reports show how students’ scores compare to other first grade students in our district within Georgia.
By the end of first grade we want students:

- to be able to read at least 60 words per Minute (ORF - oral reading fluency)
- to have a Lexile level of 400 or higher

**Lexile® Range**

- **30L - 180L**

**Test Duration:** 24 mins and 37 secs

Lexile Range identifies books at the right level to provide optimal reading challenge without frustration. Enter Lexile Range in ARBookFinder.com to find appropriate books.

Lexile Measure below BR400L is reported for progress monitoring purposes only. A score below BR400L should not be used to match readers with text, therefore a Lexile range will not be reported.
