Friday, March 31st - Hat Day

Our eighth graders are using the Maine Department of Education Mobile Computer Science Lab kits granted to LCS this trimester for our technology classes. They are working on the Life Hacks Unit with the Spike Prime kits to build these robots and code them to sync movements of the motors and sensors to a beat, speed them up and down, etc. We started a discussion about the importance of moving and exercising throughout the day as well as taking breaks throughout the day. They will continue through the unit building various devices to make life easier. They're doing a great job following directions and coding!
