## STATE OF THE DISTRICT

### 2023

March 15, 2023  
Dr. MaryJane Garibay,  
Superintendent of Schools

# COLTS NECK TOWNSHIP SCHOOLS

EMPOWERING AND INSPIRING STUDENTS TO BE CONFIDENT, CREATIVE,  
SELF-SUFFICIENT LEARNERS WHO MAXIMIZE THEIR STRENGTHS AND  
TALENTS AND CONTRIBUTE AS RESPONSIBLE PARTICIPANTS IN THEIR EVER  
EXPANDING WORLD.

# Colts Neck Township Schools 2022-2027 Strategic Plan

## Strategic Planning Goals

### Colts Neck Township Goal Areas:

- #1. Student Learning Outcomes
- #2. Facilities & Finance
- #3. Communication & Partnerships
- #4. Whole Child & Wellness
- #5. Engaging Staff

## Process & Background

### Goal #1 - Action Plan

### Goal #2 - Action Plan

### Goal #3 - Action Plan

### Goal #4 - Action Plan

### Goal #5 - Action Plan

May 2023 - Update on Progress - Year 1 of Strategic Plan

# COLTS NECK SCHOOL DISTRICT GOALS

## 2022-23 SCHOOL YEAR

- **ACADEMIC:** *Develop and implement targeted action plans to increase percentages of students “meeting” and/or “exceeding” grade-level standards in mathematics and language arts.*
- **OPERATIONS:** *Implementation of the Strategic Plan - The district will complete all activities identified for year 1 (22-23) in Action Plans.*
- **WELLNESS:** *Increase identification of SEL needs, specifically in the areas of students’ perceptions of school and perceptions of selves as learners while increasing district-wide provisions of counseling and/or mental health supports.*
- **FACILITIES:** *Identify and pursue supplemental funding for Capital Projects directly related to indoor air quality and HVAC improvements.*
- **COMMUNICATIONS:** *Foster meaningful, strong relationships with parents/guardians and community stakeholders by increasing communications from the district and facilitating opportunities for both parent/guardians and stakeholder engagement.*

Support Staff (FTE & PTE)	80
Bus Drivers / Other Transportation Staff	16
School Security Monitors	4
Special Law Enforcement Officers (SLEO), Class III	3
Department Managers	3
Central Office Support Staff	8
Administrators	10

# Value of Student Voice:

*“When schools find ways to welcome student opinions — to partner with students ‘as stakeholders in their own learning,’ especially at the secondary level — they do more than equip students with tools for lifelong success. They also wind up creating programs and policies that are more effective at meeting the school's’ own goals for supporting young people in their healthy development.”*

~Gretchen Brion-Meisels,  
Harvard Graduate School of Education

# STUDENT COUNCIL C.D.M.S.

- Build school spirit
  - Serve the needs of the school community
  - Serve Colts Neck and the surrounding community
  - Raise funds for school activities
  - Build relationships with local businesses
-

# Build School Spirit

- Battle of the Classes - B.O.T.C.
  - Grades can earn points throughout the school year
  - Winning grade will receive a prize at the end of the school year
- Themed Spirit Days
- Winter Pep Rally
- Leprechaun Trap Contest
- School Dance in April
  - First school dance in several years

# Battle of the Classes Results

	6th-grade points	7th-grade points	8th-grade points

# Serve the Needs of the Community

- Food Drives to Support Fulfill NJ
  - Fall
  - “Souper Bowl”
- Coat Drive to Support One Warm Coat
  - Joined with the CDMS Make a Difference Club to collect over 100 coats

# Touring the Facility

THANK YOU  
CDMS

The Arthur M. Goldberg Building

817  
pounds of  
donated  
items

680  
meals  
provided

# Raise Funds for School Activities

- Raffles
- Bake Sales
- Concessions
- After school Events
  - Bingo
  - Lucky Games

# Build Relationships With Local Businesses

In the future, we hope to:

- Form partnerships with local businesses
- Invite local businesses to sponsor events/activities
- Solicit local businesses for raffle prizes and donations

Thank you to Dr. Garibay, Dr. Rigby, Dr. Beil,  
and the Board of Education for supporting  
the endeavors of the CDMS Student  
Council.

# 22-23 Extracurricular Activities

## Cedar Drive Middle School:

- Student Council
- Art Club - Art Show June 8th
- Academic Decathlon Team -
- Play/Musical - The Addams Family (3/17 & 3/18)th
- Make a Difference Club
- Yearbook
- Jazz Band
- Colt Band
- Advanced Chorus
- Peer Tutoring
- After the Bell
- Seasonal Intramurals
- Sports (XC, Soccer, Basketball, Cheer, Tennis, Spring Track, Baseball, and Softball)

## Conover Road Elementary School:

# Connecting Mission & Vision

22-23 District Goal #2 - Operations / Strategic Plan Goal #4

# Wait til 8th

for children to have social media accounts

During our Writing Unit we learned the structure of an informational research essay by

- reading multiple nonfiction articles
  - researching to support claims
- And writing two research simulation essays about the topic of social media being detrimental or beneficial to children.

Emma Montalvo  
Luci Amadeo  
Kamaryi Crenshaw  
Brandon Dominczak  
Joshua Dominczak

**Claim:** While children can call, text, and Facetime with friends, social media negatively impacts teens' mental health, therefore waiting longer to allow your child to open social media accounts may benefit their overall well-being.

# The Problem

12 ½ years old is the average age a child opens a social media account.

A typical teen spends more than 44 hours per week in front of a screen (more than a 9-5 work week). Much of this time is spent on social media platforms like Instagram and Facebook (Tarshis, 2015).

A recent study found high levels of social media use over the span of four years was associated with increased depression among middle and high school youths (Albano, 2021).

# Alone Together

According to Larry Rosen, a professor of psychology at California State University, "If we are constantly checking in with our virtual worlds, this leaves little time for our real world relationships...often, even when kids are together, they are interacting with their phones instead of with each other" (Tarshis, 2015).

*Imagine if your child is hanging out with friends, but everyone is staring at their phones instead of talking, laughing, and interacting with each other. Your child may feel alone even when they are together with friends because they are not connecting, which may result in them spending even more time on their phone in their virtual world. This may negatively impact relationships, people skills, and mental and emotional health. However, parents need to ask themselves do they model this behavior for their own children every single day.*

# Unrealistic expectations of life

"Our young people compare their very real lives to the make-believe of screens and find that their lives are falling short. They grow worried that they are missing out on something. The gap between pretend and real often seems impossible to bridge." (Veciana-Suarez, 2019)

*Social media is the highlights of someone's life. No one is posting themselves doing laundry, studying, or sitting alone watching T.V. Normal life involves boredom, alone time, frustration, disappointment, hard work, and obligations, but social media shows a life of constant happiness, fun, and success which is impossible to live up to. It leads users to feel disappointed about their very normal real lives as they compare it to what they see on social media. This can lead to anxiety, depression, loneliness, isolation, poor self-esteem, and feelings of exclusion.*

# Addicting...like a drug

“Using social media can lead to physical and psychological addiction because it triggers the brain’s reward system to release dopamine, the “feel-good” chemical. For some users of social media, their brains may increase dopamine when they engage with Facebook, Snapchat, Instagram or other social media platforms. When a user gets a like, a retweet, an emoticon notification, the brain receives a flood of dopamine and sends it along reward pathways. It feels wonderful, but it also acts to reinforce our need to satisfy the feeling next time.” (Lee Health, 2023)

This cycle of motivation, reward, and reinforcement is a “dopamine loop” that gets users seeking, looking, craving rewards and more of them. (Lee Health, 2023)

There’s growing evidence to suggest that some individuals can develop a dependency on social media that’s not unlike an addiction to alcohol or drugs,” says Paul G. Simeone, Ph.D., Vice President and Medical Director of Behavioral Health at Lee Health. (Lee Health, 2023)

Social media use has many risks, and one important one is our children’s health. Like cigarettes can cause cancer, social media can cause addiction which leads to unhealthy behaviors that impact learning, focus, and social and emotional and even physical health.

## The solution

Consider waiting to allow your child to open social media accounts until they are in 8th grade or older. They can still have a cell phone without social media.

Model healthy behavior and relationships with your own smart device and social media as a parent. Put away the phones at dinner and during conversations.

# Self-monitoring strategies

One recommended strategy is the "front yard" test: "Would you be OK with each post, comment, or like being on a huge sign in your front yard?" (Edlynn, 2021) *Think about this as a parent when you post and even tag your own children on social media accounts.*

Apply the THINK method: Is your post or comment True, Helpful, Inspiring, Necessary, and/or Kind? The "H" for helpful also includes ensuring it is not harmful. Would anyone who saw this feel left out, excluded, hurt? (Edlynn, 2021)

Remind your children that social media apps benefit financially from an individual's dependence on them and are designed for addictive use, which hopefully helps your teen to want to increase their agency within their use of social media. (Edlynn, 2021)

As an adult/parent, practice these strategies as well. Children are more likely to do as you do, instead of empty advice.

# Thank you for your time and attention.

We hope you found our presentation helpful, and you take it into consideration.

# How Are We Doing as a Public School District in NJ?

# New Jersey Quality Single Accountability Continuum (NJQSAC)

The New Jersey Quality Single Accountability Continuum (NJQSAC) is the Department of Education's monitoring and district self-evaluation system for public school districts. The system shifts the monitoring and evaluation focus from compliance to assistance, capacity-building and improvement. It is a single comprehensive accountability system that consolidates and incorporates the monitoring requirements of applicable state laws and programs and complements federally required improvements. The system focuses on monitoring and evaluating school districts in five key components that, based on research, have been identified to be key factors in effective school districts. These components are **Instruction & Program, Fiscal, Governance, Operations, and Personnel.**
