everyone can work and learn. Students and their parents have the primary responsibility for acceptable student dress and appearance. Teachers and all other district personnel should exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting.

The Town of Webb UFSD Board of Education expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, district personnel and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their behavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the student's ability to grow through self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and to provide examples that focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their conduct.

Excessive noise, pushing, shoving and fighting will not be tolerated and may lead to suspension of bus privileges by the director of transportation.
- G. Engage in the improper use of a cell phone or other electronic device during the instructional day in such a way that interferes with the operational needs of the District or presents a safety hazard. IX. Disciplinary Procedures, Penalties and Referrals

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair, appropriate, and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances that led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from the parents, teachers and/or others, as appropriate.
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations.

A. Penalties

Appropriate remedial measures may include, but are not limited to:

1. Peer support groups, corrective instruction, or other relevant learning or service experience;
2. Supportive intervention;
3. Behavioral assessment or evaluation;

6. Parent Conferences;
7. Involvement of parent-teacher organization; and

C. Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning or written referral to their parents are entitled to the additional rights explained below.

1. Detention

Teachers and administrators may keep a student after school, provided there is no parental objection and the student has appropriate transportation home.

2. In-school Suspension

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a Code of Conduct violation in “in-school suspension”.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law 3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official who imposed the in-school suspension to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extracurricular activities and other privileges.

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law 3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official who imposed the suspension to discuss the conduct and the penalty involved.

4. Teacher disciplinary removal of disruptive students.

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to:

- a) short-term "timeout" in an administrator's office;
- b) sending a student into the hallway briefly;
- c) sending a student to the principal's office for the remainder of the class time only;
- d) sending a student to a school counselor or other district staff member for counseling.

Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, these various classroom management techniques may not eradicate the disruptive behavior. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or the teacher's instructions or classroom behavior rules.

A classroom teacher may remove a disruptive student from class for up to two class periods. The removal from class applies to the class of the removing teacher only.

Before a student is removed, the student, teacher, and administrator must have an informal meeting to explain to the student why he/she is being removed and to allow the student the opportunity to express his/her version of the events.

Within 24 hours after the student's removal, the teacher must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the teacher and principal, or the principal's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone.

If at the parental meeting the student denies the charges, the teacher must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The parental meeting must be held within 48 hours of the student's removal. The timing of the meeting may be extended by mutual agreement of the parent and teacher.

The principal or principal's designee may overturn the removal of the student from class if the principal finds any one of the following:

- a) The charges against the student are not supported by substantial evidence.
- b) The student's removal is otherwise in violation of law, including the district's code of conduct.
- c) The conduct warrants suspension from school pursuant to Education Law section 3214 and a suspension will be imposed.

The principal or his designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must keep a complete log (on district provided form) for all cases of removal of students from his or her class. The principal must keep a log of all removals of students from class.

Removal of a student with a disability, or a student presumed to have a disability for disciplinary purposes, may under certain circumstances constitute a change in the student's placement. Accordingly, no teacher may remove a student from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

5. Suspension from School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students but places primary responsibility for the suspension of students with the superintendent and the building principal.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases, a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall have the facts gathered relevant to the matter and record them for subsequent presentation, if necessary.

Regardless of the length of suspension, students are not allowed to attend or participate in any school function, or be on any school property (to include buses except for transportation to the out-of-school suspension location), during the time of suspension.

a. Short-term (5 days or less) suspension from school

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less, the suspending authority must immediately notify the student orally, and the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing of the proposed suspension and their right to an informal meeting with the Building Principal prior to the suspension being enacted. If the student poses a danger to him/herself or others, or poses a disruption to the educational environment the suspension may occur immediately and the parents maintain the right to meet informally with the Building Principal. Where possible, notice should also be provided by phone.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents.

b. Long-term (more than 5 days) suspension from school

When the superintendent or the building principal determines that a suspension for more than five days is warranted, he or she shall give reasonable notice to the student and to the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape/digital recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or part thereof.

An appeal of the decision of the superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be made in writing and submitted to the district clerk within ten business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the superintendent. Final decisions of the Board may be appealed to the Commissioner within thirty (30) days of the decision.

c. Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

C. Minimum Periods of Suspension

1. Students who bring a weapon (Page 2, II "Weapon") to school

Any student found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

- a) The student's age.
- b) The student's grade in school.
- c) The student's prior disciplinary record.
- d) The superintendent's belief that other forms of discipline may be more effective.
- e) Input from parents, teachers and/or others.
- f) Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts (Page 7, VII, D) other than bringing a weapon to school

Any student, who is found to have committed a violent act, other than bringing a weapon to school, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal hearing given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension.

The superintendent has the authority to modify the minimum five-day suspension on a case-by case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interfere with the teacher's authority over the classroom.

Any student, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, may be suspended from school for up to five days. For the purposes of this Code of Conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) on two or more occasions. If the proposed penalty is the minimum one-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the five-day suspension, the student and the student's parents will be given the same notice and opportunity given to students subject to a long-term suspension. The superintendent has the authority to modify the minimum one-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

A. Referrals

1. Counseling

School counselors, psychologists, and social workers will work with parents when referring students in need of identified outside services.

2. Legally placed supervision

The district may file a petition (PINS) in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a) Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b) Engaging in an ongoing or continual course of conduct which makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.
- c) Knowingly and unlawfully possesses marijuana in violation of Penal Law 221.05. A single violation of 221.05 will be sufficient basis for filing a PINS petition.

3. Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before Family Court:

- a) Any student under the age of 16 who is found to have brought a weapon to school, or
- b) Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law 1.20 (42).

The superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities including filing a criminal complaint in appropriate circumstances.

X. Alternative Instruction

When a teacher removes a student of any age from class or a student of compulsory age is suspended from school, the district will take immediate steps to provide alternative means of instruction for the student.

XI. Discipline of Students with Disabilities

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities are afforded certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations. This code of conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulation.

A. Authorized Suspensions or Removals of Students with Disabilities

1. For purposes of this section of the code of conduct, the following definitions apply.
 - A “suspension” means a suspension pursuant to Education Law §3214.
 - A “removal” means a removal for disciplinary reasons from the student’s current alternative educational setting other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.
 - An “Interim Alternative Education Setting” (IAES) means a temporary educational placement for a period of up to 45 school days, other than the student’s current placement at the time the behavior precipitating the IAES placement occurred, that
 - a) Enables the student to continue to progress in the general curriculum, although in another setting.
 - b) To continue to receive those services and modifications, including those described on the student’s current individualized education program (I.E.P.), that will enable the student to meet the goals set out in such I.E.P., and
 - c) Include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.
2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
 - a) The Board, the district (BOCES) Superintendent of Schools or a school principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - b) The Superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
 - c) The Superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
 - d) The Superintendent may order the placement of a student with a disability in an IAES to be determined by the Committee on Special Education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 school days, if the student carries or possesses a firearm to or at school or to or at a school function, or the student knowingly possesses or uses illegal drugs or sells, distributes or solicits the sale of a controlled substance while at school or a school function.
 - e) Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 school days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

B. Change of Placement Rule

1. A disciplinary change in placement means a suspension or removal from a student’s current educational placement that is either:
 - a) For more than 10 consecutive school days; or
 - b) For a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they accumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.

2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal. However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in a IAES for behavior involving firearms, illegal drugs or controlled substances.
- C. Special Rules Regarding the Suspension or Removal of Students with Disabilities
1. The district's Committee on Special Education shall:
 - a) Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the district is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving firearms, illegal drugs or controlled substances or the infliction of serious bodily harm. If subsequently, a student with a disability who has a Behavioral Intervention Plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary. If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.
 - b) Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either:
 - 1) For misconduct involving firearms, illegal drugs or controlled substances; or
 - 2) because maintaining the student in his current educational setting poses a risk of harm to the student or others; or
 - 3) A decision is made to impose a suspension that constitutes a disciplinary change in placement.
 2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.
 - a) The Superintendent, school principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
 - b) A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:
 - 1) Conducted an individual evaluation and determined that the student is not a student with a disability; or
 - 2) Determined that an evaluation was not necessary and provided notice to the parent of such determination, in the manner required by applicable law and regulations. If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors. However, if a request for an individual evaluation is made while such non-

disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

- 3) The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving firearms, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.
- 4) The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
- 5) Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.
- 6) The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
- 7) During any period of suspension or removal, including placement in an IAES, student with disabilities shall be provided services as required by the Commissioner's regulation incorporated into this code.

D. Expedited Due Process Hearings

An expedited due process hearing is an impartial hearing conducted under the procedures specified in S200.5 of regulations of the Commissioner when there is a dispute between parents and school personnel regarding disciplinary actions and to initiate temporary removals of a student in a dangerous situation. An expedited due process hearing shall be conducted in a manner specified by the Commissioner's regulations incorporated into this code, if:

1. The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
2. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
 - a) During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving firearms, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.
 - b) If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in

505.00

placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.

3. An expedited due process hearing shall be completed within 20 school days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents within 10 school days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

E. Referral to law enforcement and judicial authorities

In accordance with the provisions of IDEA and its implementing regulations:

1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The Superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

XII. Corporal Punishment

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any district employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot be used, reasonable physical force may be used to:

Protect oneself, another student, teacher or any person from physical injury.

- A. Protect the property of the school or others
- B. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The district will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

XIII. Student Searches and Interrogations

The Town of Webb UFSD Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district Code of Conduct. Students are not entitled to any sort of "Miranda" – type warning before being questioned by school officials, nor are school officials required to contact a student's parents before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the superintendent, building principal, the school nurse and district security official to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district Code of Conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon the information received from a reliable source. Individuals, other than the district employees, will be considered reliable sources if there is a reasonable belief that a violation of the Code of Conduct or law has occurred.

Before searching a student or student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or Code of Conduct, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practical, searches will be conducted in the privacy of administrative offices, and students will be present when their possessions are being searched and at least one other staff member will be present. The scope of the

505.00

search must be reasonably related to the object of the search. Consideration should be given to the age and sex of the student(s), and nature of the infraction.

A. Student Lockers, Desks and Other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage areas. Students have no reasonable expectation of privacy or exclusive possession with respect to these places, other than in relation to other students, and school officials retain complete control over them. This means that student lockers, desks, and other school storage areas may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Strip Searches

A strip search is a search that requires a student to remove any or all of his or her clothing, other than an outer coat or jacket. If an authorized school official believes it is necessary to conduct a strip search of a student, the school official may do so only if the search is authorized in advance by the superintendent or the school attorney. The only exception to this rule requiring advanced authorization is when the school official believes there is an emergency situation that could threaten the safety of the student or others.

Strip searches may only be conducted by an authorized school official of the same sex as the student being searched and in the presence of another district professional employee who is also of the same sex as the student.

In every case, the school official conducting the search must have probable cause – not simply reasonable cause – to believe the student is concealing evidence of a violation of the law or district code. In addition, before conducting a strip search, the school official must consider the nature of the alleged violation, the student's age, the student's record, and the need for such a search.

School officials will attempt to notify the student's parent by telephone before conducting a strip search or in writing after the fact if the parent could not be reached by telephone. However, parental consent is not a prerequisite to the search if the above requirements are met.

C. Documentation of Searches

The authorized school official conducting any search shall be responsible for promptly recording the following information about each search:

- 1) Name, age, and grade of the student searched.
- 2) Reasons for the search.
- 3) Name of the informant(s).
- 4) Purpose of the search (that is, what item(s) were being sought).
- 5) Type and scope of the search.
- 6) Person conducting the search.
- 7) Witnesses, if any, to the search.
- 8) Time and location of the search.
- 9) Results of the search.
- 10) Disposition of items found.
- 11) Time, manner and results of parental notification.

The building principal or the principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal or his designee shall clearly label each item taken from the student and retain control of the item(s), until the item(s) is turned over to the police. The principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

D. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police

officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

- 1) a search or an arrest warrant; or
- 2) probable cause to believe a crime has been committed on school property or at a school function; or
- 3) been invited by school officials.

Before police officials are permitted to question any student under the age of sixteen, the police official, building principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning. If the student's parent cannot be contacted prior to the police questioning, the police official shall determine, based on the totality of the circumstances, if the student shall be questioned on school property or at school functions. The principal or designee will also be present during any police questioning of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. The police official will convey such rights to the student. This means:

- 1) They must be informed of their legal rights.
- 2) They may remain silent if they so desire.
- 3) They may request the presence of an attorney.

E. Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services or workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to the building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective service worker to verify the allegations, the school nurse or other appropriate district personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

XIV. Visitors to School

The Board of Education encourages parents and other district citizens to visit the district's school and classrooms to observe the work of students, teachers, and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to school visitors.

- A. Anyone who is not a regular staff member or student of the school will be considered a visitor.
- B. All visitors are expected to abide by the rules for public conduct on school property contained in this code of conduct.
- C. During regular school hours all visitors to the school must report to the main office/school greeter upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the main office/school greeter before leaving.

505.00

- D. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
- E. Parents or citizens who wish to observe a classroom while school is in session are required to obtain administrative approval and arrange for such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum.
- F. Teachers are not expected to take class time to discuss individual matters with visitors.
- G. Visitors attending school functions that are open to the public outside or inside of the school day, such as parent-teacher organization meetings or public events are not required to register at the main office.
- H. Student Sponsored Visitors.
