Parent Bulletin: June Happenings

**Changes in Bradford’s Schedule**
The 4th grade is officially departmentalized! The 4th grade staff will be joining their 5th grade counterparts in the block schedule. This means that all 4th grade students will have all 3 teachers, just like the 5th graders. Each teacher will be teaching only one discipline, ELA, Math, Sci/SS.

**Also, there are some changes in teacher placements:**
5th grade: Mr. Liddy, Mr. Barry, and Ms. Park
4th grade: Ms. Caceres, Mr. Freeh, and Mr. Keys
3rd grade: Ms. Sullivan, Ms. Eckardt, Ms. Evangelista

**“It’s science, not magic!”**
Thank you to the PTA for organizing this fun assembly by Talewise STEM! It was an exciting show that demonstrated why science is so fascinating, in fact, it was the perfect opener to our STEAM Faire event.
Bradford STEAM FAIRE Day
Super appreciative of Ms. Rippeteau’s excitement and diligence in organizing such an incredible event for all students. What an incredible experience for our staff and students!

The STEAM Faire was such a great success we plan to make an annual event at Bradford! Please reach out to Caroline Rippeteau-Oster if you’re interested in joining the STEAM Faire planning committee for next school year! carolineripp@gmail.com. Full STEAM ahead!

MANY THANKS to the community of Bradford Parent Volunteers, Bradford Staff and Bradford PTA funding that contributed to the success of the STEAM Faire!

MANY THANKS to the Montclair High School Robotics Team 555! How wonderful for our Bradford students to see high schooler role models doing exciting things in the field of robotics!

Many thanks to the Montclair State University Robotics Club for their interactive presentation at the Faire. Bradford looks forward to the continuation of this educational collaboration. Some words from the MSU Robotics Club leader, Weitian Wang, Ph.D.; Assistant Professor in the MSU Department of Computer Science.

“The robotics showcase and hands-on projects are organized by the IEEE STEM Champion Dr. Weitian Wang and his research team. These activities are supported in part by the
National Science Foundation under Grant CNS-2117308 and CMMI-2138351. Students engaged in the robotics hands-on projects to program and control the robots to walk, dance, talk, interact with humans, and mimic animals.”

Many thanks to the Montclair Learning Center for their engaging activities and staff! The STEAM Faire was a great opportunity to extend their Bradford involvement beyond their already successful after-school enrichment programs. Students will backpack home informational brochures detailing MLCs various educational camp offerings this summer! ”
Come get your Bradford Reader!

We are delighted to present yet another captivating edition produced by our exceptional student reporters! We extend our gratitude to Mr. Rice for leading and motivating our brilliant students, encouraging them to showcase their finest and most imaginative work for the enjoyment of our community.

Someone needs to call Simon Cowel, because Bradford’s Got Talent!

On June 14th, our school witnessed a remarkable display of talent as more than 40 students captivated the audience with their diverse artistic expressions. This wonderful event highlighted the immense potential and creativity that thrives within our student body. A special thanks to Ms. Tamasco and Ms. Cedro for organizing the event, and to all the students who assisted in managing this incredible line up.

Congratulations to our 5th grade graduating class of 2023

Bradford wishes our all star graduates the very best in their middle school journey! We are always for you all! I would like to extend a warm appreciation to Ms. Podvesker and the 5th grade committee/parents who made the 5th grade party such a fun and memorable experience for our students!
Run-A-Thon 2023

There is no way to end the school year without running several miles and eating ice pops, all for a great cause! The proceeds from the Run A Thon will benefit Bradford’s health and wellness program. Shout out to Mr. Acuna and the PTA for organizing this successful endeavor!
