Corrections from last week’s bulletin:
Dr. Takebayashi Visits Ms. Michaud’s class:
She came in today to speak about Hiroshima - where she was born. She read a meaningful book about the tree that survived the bombing. The rare book is called Aogiri’s Dream. Students learned how to paint the word peace in Japanese.

**Bradford Festival would not have been possible without full sponsorship from the NJEA and MEA. Our teacher’s union was a proud supporter of this wonderful, engaging event!}
Please join us at the Children of the Sun FREEDOM & CULTURE through Literacy Series at Nishuane School on June 16th from 5:30-8:00pm, a fun literacy-centered, arts and culture event aimed at inspiring children to read during the summer months. The Montclair NAACP, in conjunction with the Montclair Public School District, is uniting to host this event, and created by Montclair organization ICAP and See Do Be, Inc.
Children will be able to engage two children's authors who will be our featured guests. We will have 200 author signed books that will be given away to the children in attendance. Also, we will have a community book swap where people are encouraged to share books for all ages and genres. There will be art, activities, and music for everyone to enjoy. We hope to see you at Nishuane School on June 16th from 5:30-8:00 pm.”

Parking Concerns:
We kindly request families to be considerate and refrain from parking in our neighbors' driveways or blocking the fire hydrant. Your cooperation in this matter is greatly appreciated.
